Funky Wunky Wunderday

Written by Maria Davis' Grade 3 Class, Molly Hamilton, Anthony Burbidge
Eugene Coste School, Calgary, Alberta, Canada. March 11, 2010

Verse 1

```
        G              G              C                C
Let's celebrate the holidays with Christmas time and Easter too
         G                G          C          C
Have a creepy, crawly Halloween, down at the Calgary Zoo
    G              G              C        C
A huggy, wuggy, lovey, dovey Valentines to you
  Am                                D          C      G
These are the things that make a funky wunky wunderday
  Am                                D          C      G
These are the things that make a funky wunky wunderday
```

Verse 2

```
        G                G              C                  C
Let's have some fun & play all day in summer, spring and winter too
   G                G                  C              C
Camping, surfing, skiing, soccer are things friends love to do
 G              G        C                C              C
Let's go swimming, skipping, biking, shoot a target or two
  Am                                D          C      G
These are the things that make a funky wunky wunderday
  Am                                D          C      G
These are the things that make a funky wunky wunderday
```

Verse 3

```
         G             G                C                C
Let's celebrate our wunder days with all our friends at school
        G                G                    C                C
 When recess comes we'll go outside and play games that totally rule
       G                G                C                C
Yeah we'll go running, skipping, jumping, man that'll be so cool
  Am                          D              C      G
These are the things that make a funky wunky wunderday
  Am                          D              C      G
These are the things that make a funky wunky wunderday
  Am                          D              C      G
These are the things that make a funky wunky wunderday
```
