- **It's a Wonderful World**
- **Earth is an Ocean**
- **The Earth Forever**
- **The Earth Song**
- **Ocean Blues**
- **Earth and Ocean Blues**

## ***The Low Down Environmental Blues***

Written April 13, 2010 at Eugene Coste School by Cathy Thomsen's and Lila Dick's Grade 4 classes,  
Molly Hamilton and Anthony Burbidge

### **Verse 1**

**If we want to save the planet  
There is so much we can do  
We can reuse plastic shopping bags  
We can compost food scraps too**

### **Verse 2**

**If we want to save the planet  
We can use cloth bags today  
We can all drive hybrid automobiles  
Turn the lights off when we are away!**

### **Chorus 1**

**Well if we do these things  
You know it's true  
We can save our planet from  
The low down environmental blues**

### Verse 3

If we want to save the planet  
Let's keep our oceans clean  
Don't dump oil and garbage in  
Think environmentally clean

### Verse 4

If we want to save the planet  
We can all plant beautiful trees  
Cause the trees give the world it's oxygen  
They make homes for the birds and bees

### Repeat Chorus

### Verse 5

If we want to save the planet  
There is so much we can do  
We can recycle paper every day  
Cause recycling's our golden rule

If we want to save the planet  
The change will start with us  
We can eat organic vegetables  
Ride our bicycles or take the bus

### Repeat Chorus

### Repeat Chorus
